WORK EXPERIENCE

Omniful

Product Designer 2

Gurgaon, Haryana

June 2024 -Present

- Leading UX for TMS and delivery app modules like vehicle management, trip flows, PoD, and payment — improving efficiency and reducing friction.
- Designed end-to-end Stock on Wheel module across admin and driver app, enabling mobile inventory dispatch and real-time visibility.
- Built demand forecasting and redesigned order creation in WMS/OMS, streamlining planning and warehouse ops.
- Revamped company website and launched new landing pages, aligning visual language across growth surfaces.
- Maintained and scaled shared UI library for consistent design across TMS, OMS, WMS, and web.
- Developing a unified design system to support scalability across all product lines.

Edgistify

Product Designer 1

Thane, Maharashtra

Sep 2023-June 2024

- Managed the product lifecycle from conception to execution, aligning with client requirements for successful implementation.
- Designed a B2B model for EdgeOS and developed a Route Optimization Web-Based App for Bisleri, enhancing functionality and streamlining logistics operations.
- Worked on a Web-Based Picker App to optimize warehouse processes and increase productivity.

Edgistify
